AN UPDATE ON THE
GOOSE CREEK
SANITARY SEWER EXTENSION PROJECT

GOOSE CREEK

SANITARY SEWER EXTENSION

CURRENT PHASE

Charlotte Water (CLTWater) is currently in the Design and Permitting phase for this project and expects to move into the construction phase in the coming months. This current phase includes preparation of the construction drawings and permits for construction.

The project will enhance wastewater service and initiate public wastewater treatment service in an area predominantly using septic tank systems. The project is called "Goose Creek Sanitary Sewer Extension to Fairview Road."

NEXT STEPS

The design phase is nearing completion and is on track to be submitted for permitting this summer. Construction is slated to begin in Fall 2020 and is expected to be complete in late Summer 2021.

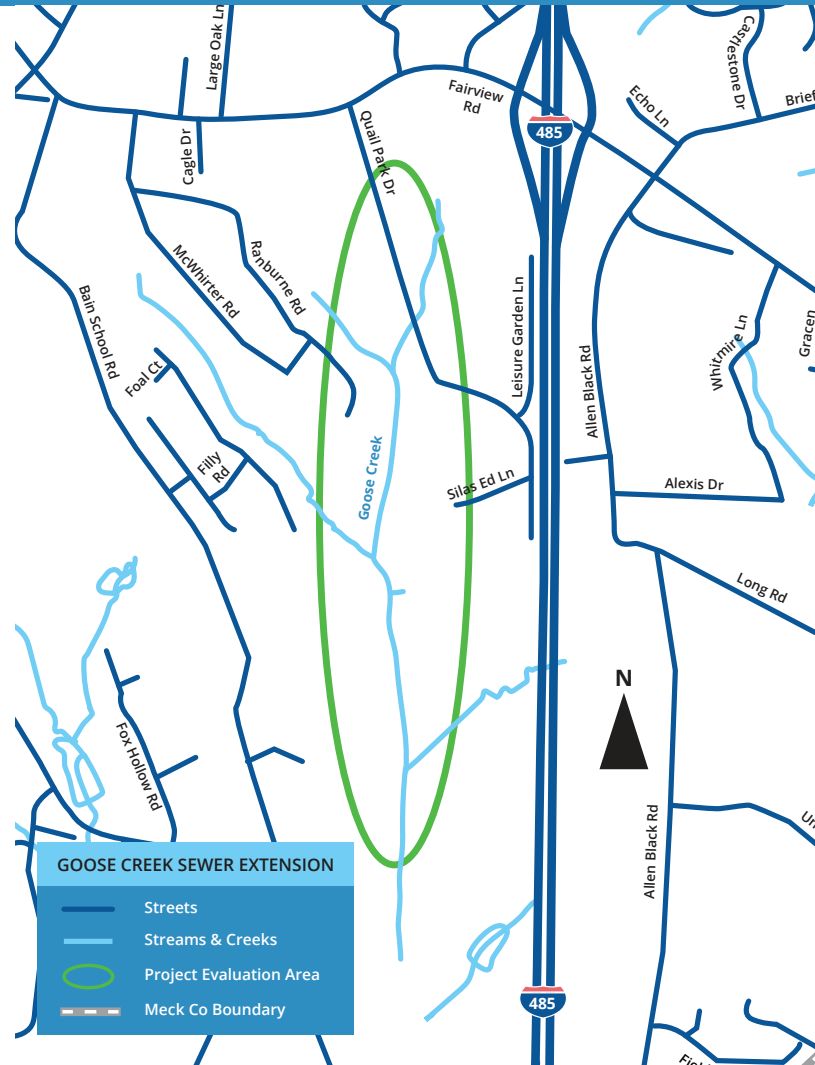

PROJECT EVALUATION AREA

The project will connect existing and future sewer lines along Goose Creek until it reaches Mint Hill Veterans Memorial Park (see location map to the right).

ACTIVITIES TO EXPECT

Authorized representatives of CLTWater may be working on or near your property to conduct surveys, examination and other investigations as may be necessary. The majority of all field work during this phase has been completed. All field crew members are instructed to wear identifying clothing, and their activities should not inconvenience you in any way. Residents may also see:

- Minor clearing activities in the area
- Survey stakes or flags
- Paint markings on the ground

EASEMENTS

A small number of properties have been identified for a potential permanent easement or temporary construction easement agreement along the proposed project route. An easement agreement allows CLTWater usage of part of a property owner's land after a legal agreement has been reached. CLTWater representatives with TELICS have either contacted, or attempted to contact, all impacted property owners to discuss the easement acquisition process.

ADDITIONAL INFORMATION, FUTURE UPDATES & TECHNICAL DESCRIPTIONS As work progresses, additional information will be provided and the schedule will be updated. Please visit www.charlottewater.org, click on Projects > Construction > Goose Creek Sanitary Sewer Extension to Fairview Road.
